

COVID has changed the way we return to school.

The OutClass™ outdoor classroom system offers a natural, flexible, pedagogically sound approach to quickly scaling up your classroom capacity outside to take the pressure off your teachers and school inside.

School buildings were designed to gather students close together, not spread them apart.

The solution is just outside your door!

## Order OutClass™

**1(866)485-4228**

**info@outdoorclassrooms.com**

### Reduce exposure to COVID19

- OutClass™ surfaces naturally disinfect overnight (compared to 4-5 days for plastic & steel)
- Seat spacing naturally reinforces distancing protocols
- Each student seat provides a backpack hitch to keep materials self-contained

### Quick set up and removal

- Low-impact surface mount system
- Each classroom can be set up or removed in an hour
- Convert an entire soccer pitch into an outdoor school in a day
- Quickly remove OutClass™ and recover your fields

### Flexible teaching space

- Allows for infinite configurations of seating and breakout groups
- Moving tool allows you to reconfigure and adapt to distancing protocols
- Buffers between classes and shelter enhance the learning environment
- Teacher tested and approved

### Transforms to play structure

- Components can be repurposed into an engaging, compliant play structure (ASTM, ANSI, CSA, ADA)
- Other options for reconfiguration include outdoor gathering area, social seating, student study groups, and even bleachers for your sports fields

## COVID-19 & OutClass™

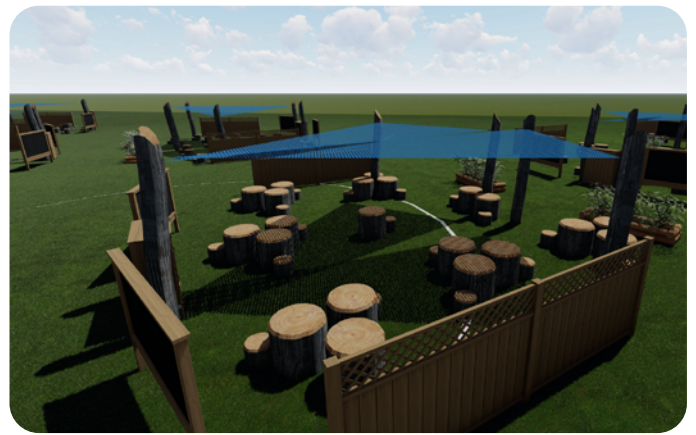

- Transmission is significantly lower outdoors
- 6' physical distancing is built-in
- Our natural wood surfaces lower viability of virus
- Exposure to the elements decreases viral load
- OutClass™ resets to zero viable viral load daily
- Plastic & steel maintain viral load for 4-5 days
